Acvtion B.2 - Communication and information campaign and training in Protected Areas (Campagna di Comunicazione, Informazione e Formazione nelle Aree Protette)

The **didactic/experiential paths** were realized in 4 national protected areas. On July 2020, Federparchi installed the "corner" for the promotion and use of the VR technologies "Alien Species Immersive App": National Park "Gran Paradiso", July 3rd 2020; National Park "Arcipelago Toscano (PNAT)", July 10th 2020; National Park "Appennino Lucano Val d'Agri Lagonegrese (PNAL)", on July 17th 2020; National Park "Aspromonte" (PNA), July 24th 2020. Due to Covid-19 restriction in the visitor centres, visitors were not able to access the VR viewers to experience the didactic/experiential paths, but the paths were tested by few selected testers.
